

SSAF PR 90 EX SR

*For vertical glass, 7 year warranty for sloping glass. Warranty is only valid if installed by trained and qualified personnel.

Performance Data

Technical data	6mm single	4/16/4 mm double
Visible Light Transmission, T_v	88%	78%
Visible Light Reflection (External), P_{ve}	9%	15%
Visible Light Reflection, (Internal), P_{vi}	9%	16%
Ultraviolet Rejected	99.9%	
g value	0.64	0.56
Total Solar Energy Rejected	36%	45%
Heat Gain Reduction	21%	
Infrared Rejected	97%	-
Film Colour / appearance	Clear	
Installation position	External	

Viewed from outside

Features and Benefits

- Spectrally selective, multilayer nano-technology
- High quality, unchanged building appearance with clear vision.
- Substantial heat rejection provides energy savings and enhanced comfort, combined with a clear film.
- Extends the life of furnishings by rejecting UV rays, the single largest component of fading.
