Features and Benefits

- A film designed especially for vehicles to enhance comfort, privacy and appearance.
- Good Infra Red (900nm - 1000nm) rejection.
- Very low visible light transmission to reduce glare, aid privacy and reduce heat gain.
- Blocks out 99% of ultraviolet radiation, protecting valuable interiors from fading.
- SSAF Films are protected by a patented scratch-resistant coating.
- Helps to reduce in-car heat build up, reducing the use of the air-conditioning, which can help to save fuel and reduce emissions.
